REF: PARTICIPATION OF FOREIGN ELITE ATHLETES

Please refer to our conversation regarding that matter. I am happy we reached an understanding for the betterment of Road Race events in Tanzania. Here will be rules for all International events starting in February 2024.

Each foreign country will be represented by any number of Elite Athletes per event per gender. However, only 3 athletes per event per gender from one country may win prize money (ie. 3 females for Marathon and 3 females for 21Km and same distribution for Males) and the rest may be entitled to their position and time but not prize money. However, for an athlete to be eligible they must have prior authorization from their national federation clearing them of any disciplinary measure or violation of Race rules.

I wish you all the best in final preparations.
